

May 14, 1975

the Commission on Aging. Subsequently it was not included in either one of them because of a lack of communication or something between the two departments. The real question is that there was that mix up in the program no longer exists. This is what I am trying to correct.

SENATOR R. LEWIS: Senator Lewis I would like to ask you if why, shouldn't it be a program sponsored by the Commission on Aging? I'd might be telling you why, I'm asking. I think that if it is assigned to the ETV and the program is phased out at a later date, and it relates not ordinarily to the ETV programming but it does relate to the Commission on Aging and that particular classification of people. Now if this program was phased out at a later date, isn't it just a wind fall in their budget rather than a specific item that will be terminated at whatever point the program is no longer carried.

SENATOR F. LEWIS: Senator I wasn't interested in...my interest is not who does it, but it is to be done. Now Mr. Hall doesn't like my amendment I don't think because I said out of his existing funds. That he would come up with the \$16,000 to operate the program. But if you would support it and you feel that it is better to take it out of existing Commission on Aging funds or adding \$16,000 for the purpose of the program, I'm certainly wide open for it. My objective is to continue the program which I think is important to the elderly of this state.

SENATOR R. LEWIS: Have you watched the program sir?

SENATOR F. LEWIS: Yes, I have.

SENATOR R. LEWIS: And you approve of it. You think that it is a worth while program.

SENATOR F. LEWIS: Yes I do and I have visited with....during our hearings across the state last year we had dozens and dozens of people who responded too it. I also get the mailing from Mr. Switzer on the information that she puts out and it is very valuable.

SENATOR R. LEWIS: Your specific amendment will take \$16,000 from funds already allocated to ETV to support this particular program.

SENATOR F. LEWIS: Yes it would.

SENATOR R. LEWIS: You are asking for a rearrangement of their budget.

SENATOR F. LEWIS: Yes I am.

PRESIDENT: Senator Nichol.

SENATOR NICHOL: Mr. Chairman members of the Legislature. In view of the time element I turned my light off, but I would like to say that since I was instrumental in the western end of the state in getting some of these aging programs going
